

## Startup mahakumbh Delhi

Sanjoyt Basara, Siddhesh Rokade, Shweta Jadhav, and Kashid Asmita, third-year students from the Artificial Intelligence and Data Science Department, participated in the Startup Mahakumbh in Delhi. The event, which took place from March 18 to March

21, 2024, is a prominent competition showcasing innovative startups and entrepreneurial projects. The students presented their ideas and projects amidst a highly competitive atmosphere, engaging with industry experts and potential investors.

Their participation in this prestigious event underscores their commitment to advancing in the fields of artificial intelligence and data science, providing them with valuable

exposure and experience in the startup ecosystem. This opportunity not only highlights

their skills but also positions them for future success in their careers.
