

Jaihind Polytechnic Kuran Project expo2024

Sanjoyt Basara and Shreedhar Vharambale, third-year students from the Artificial Intelligence and Data Science Department, participated in the Project Expo 2024 held at Jaihind Polytechnic, Kuran, on March 5, 2024.

Their project showcased innovative applications and effective use of AI and data science techniques. Competing against numerous entries, they secured the third prize, demonstrating their technical skills and creativity. This achievement highlights their hard work and expertise in a highly competitive environment, reflecting their potential in the field of artificial intelligence and data science. The recognition they received is a testament to their dedication

and offers a promising outlook for their future academic and professional pursuits.
