

Samarth Technical Festival 2024

On March 6, 2024, Sanjyot and his team of four members competed in the Samarth Technical Festival 2024 at Belhe Samarth College of Engineering. The festival, renowned for its challenging and innovative projects, drew numerous talented participants. After a day of intense competition and showcasing their technical skills, Sanjyot's team distinguished themselves by securing 3rd place. This achievement reflects their hard work, creativity, and expertise in their field. The team's performance not only earned them recognition but also highlighted their capability to

excel in a competitive environment. Their success at the festival is a commendable accomplishment and a testament to their dedication and teamwork.
