**Event
Summary
Report**

A workshop was organized by Electronics and Telecommunication Department of Jaihind college of Engineering, Kuran on 22nd June 2024 at A.P.J. Abdul Kalam seminar hall. This event was organized for faculties how to grant research .We are proud to have Dr.Jitendra Sangwai, Dr.Minal Deshmukh as our guest speaker. Dr.Jitendra Sangwai is working as Professor,IIT Madras and Dr.Minal Deshmukh Sangwai is working as Assistnat Professor,WPU,Pune.

They told research funding is an essential part of conducting research. To be able to secure a research grant is a matter of prestige for a researcher and it also helps in the advancement of career. A grant proposal is actually a call to action. It's a request that a funder join the nonprofit as a partner in achieving specific results. At its best, a grant proposal is a cogent, persuasive, well-supported argument for change. The session was very interactive and cordial. They both were discussed the different research proposal authorize agencies and company. He explained importance of research and how it is important to help in your professional connections. Faculties also responded very well and also asked Some questions to the resource person.

One of the most important parts of the grant proposal structure is the problem statement. Also known as the needs statement or statement of need, this is where you explain the problem you have identified and how you can solve it. A grant proposal is a very clear, direct document written to a particular organization or funding agency with the purpose of persuading the reviewers to provide you with support because:you have an important and fully considered plan to advance a valuable cause, The scope outlines the goals, objectives, activities, deliverables, budget, and timeline of the project. It also sets the expectations and responsibilities of the grantee and the funder. A clear and realistic scope can help you plan, execute, and evaluate your project effectively and efficiently.

Objectives should specify the result of an activity. Objectives should identify the target audience or community being served. Objectives need to be realistic and capable of being accomplished within the grant period. In general, a statement of grant purpose or proposal is about a specific project or opportunity in the future: it explains what you propose to do. This can be a research project, course of study, or professional experience. A proposal is a kind of persuasive writing.

Programs started at 10:30 AM with the inauguration and welcoming of Resource Person (Dr.Jitendra Sangwai, Dr.Minal Deshmukh), Dr.S.D.Gunj (Director, JCOE), Dr.D.J.Garkal (Principal,JCOE), Dr. Mulajkar R. M. (HOD of E&TC department), Dr.V.M.Dhede (Academic Dean) and faculty members of E&TC, Computer, Civil ,AI&DS and Mechanical Department) were present.

There are total 91 faculties were present for seminar.

ABOUT INSTITUTE

Jaihind Comprehensive Educational Institute was established in 1998 by Late Talwar Sahab Gunjal with vision of provision of excellent education in technology and to fulfil this vision in 1997 JCEI started its first educational institute i.e. Jaihind Polytechnic which is formerly known as Institute of Technology imparting quality education in diploma engineering.

To provide next level of education in 2010 JCEI started its Jaihind College of Engineering with Degree Courses in Civil, Computer AI & DS E & Te, Mechanical Engineering and PG courses in Civil, E & Te, Mechanical Computer and AI & DS affiliated with Savitribai Phule Pune University Two Ph.D. Research Center approved by SPPU in E&Te engg. & Mechanical Engg. JCEI not only aim to making technocrats but to create citizen of India who will contribute in the nation building. Technical aspirants can remarkably contribute in multi-dimensional development of the country and we endeavor to nurture many such technical aspirants. Jaihind College of Engineering is approved by AICTE, New Delhi as well as Director of Technical Education (M.S.) having accreditation from NAAC and ISO. Our college opened a new window for rural. Initial students to build capacity within and prove them successful.

LOCATION

The Institute is located at KURAN at a distance of 7 km from both Naryanganon (Pune-Nashik Highway) and Junnar in Pune District, in the shrine of two of asarvinyak (Ozar & Lanyadi) & near to a famous fort "Shivner" for which location map is provided. Frequent Buses from MSRTC (S.T.) are available from Naryanganon.

About Workshop

The one day workshop envisage providing the participants with a comprehensive understanding of Research Methodology and its application. It aims to familiarize participants with cutting edge research techniques and research based interaction. In-depth details of research and research methodology will be discussed. The workshop is an endeavor to investigate various research methodologies and their outcomes. The modules will aim to enhance the participants capacity for independent research in a particular domain. And relevant and relevant methods of literature survey, create surveys, gather and analyze data, run simulations, and help them write research articles for high caliber publications.
