1. PREAMBLE

In the Engineering Education a collaborative effort between industry and academic institutions has become the key to success. This is possible only by the continuous collaboration and exchange of knowledge amongst industries and academic institutions for the ultimate welfare of the society. Education is the noble cause of building up nation. In order to improve the quality of education, the educational institutes must endeavour to establish rapport, identify areas of co-operation, and enter into MOUs with neighbouring institutions and industries on viable collaborative/ consultancy projects with specific time-frames and well-defined parameters of output. The collaboration could be in the areas of exchange of latest technological trends and ideas, credit transfer, joint projects of students and faculty, joint publications, joint sponsored projects from funding agencies, joint faculty and staff development programs, joint consultancy projects with a sound revenue sharing model etc.

2. PURPOSE

The aim of this MoU is primarily to establish a written document under which both organizations may enter into further specific agreements to perform collaborative programs in the areas of mutual interests.

3. AREAS OF COLLABORATION

- i. To conduct training programs of 'hands-on' experience to the faculty and students of the JCOE, Kuran, Pune.
- ii. To organize exchange of knowhow between faculties of the college and the engineers/managers working in the industry.
- iii. To provide in-plant training to the students with mutual consent..
- iv. To share the resources of JCOE, Kuran, Pune and Pinto Electronics for activities of mutual interest.
- v. To train the students to enhance their employability by conducting training programs to bridge the gap between academics and industry.
