One day industrial visit

Everything is good

Awesome experience with this semester

All Good

Am very happy to having teachers all like this..They motivate for each things for personal growth

Lab,Seminar, Practicals

Nice

1. Use digital tools for interactive learning.
2. Teach students according to their individual needs.
3. Connect theoretical concepts to real-life situations through hands-on experiences.

--

Use a better graphics
Try to solve every student doubts

1.Teachers should give equal weitage to all types of students in class..... something teacher only consider the openion and answer of the 1 or 2 topper students in class and they directly ingnore the other average and below average students... although this students have 90+ attendance in class.
2.I think that our department is giving more priority to the events(department level) compare to the teaching, syallabus and practicals .many students are absent to a practicals and classes and not a single teacher give punishment or fine to them .....but xyz student whose is attendance is 90+ in a regular class and practicals and if he is absent in a department event then class teacher directly apply fine on them and students those having high self respect submit fine as early as possible and those students having little bit less self respect do not submit the fine and the class teacher forget those students.
3.in each and every department of each and every college is allowed 2 field visits but our department.....
4. My kidney request for teachers to complete the whole syallabus with a constant teaching speed.

Very good

Providing one-on-one mentoring and teaching for the students who are week in respective subjects.

No need .bcoz all teaching and learning is very best .

Creat positive environment, Encourage collaboration,

A

-Teacher behaviour to Students rudely nd disrespectful
-Extraa activity fees is high -ex ganapti festival,gathering,sport
-do not give stress late submission, assignment,class test sometime give apologies
-To Student do not punished him like affect on internal marks and fine

No it's excellent work

Focus on Practicals for teaching

1.communicate more with students
2.compulsion for all the completion take strek actions

No need to improve they are already excellent

To increase student development activities

No any suggestions

No Suggestions.
All teaching and learning process is very well and good.

1. Use technology like smart boards and interactive tools for better engagement.
2. Offer personalized feedback to support individual student growth.
3. Strengthen ties with industry through internships and workshops.

Good teaching

It's Good

Focus on holistic development

No need of any suggestion

Good well

1)Use Technology in The Classroom
2)Make it interactive
3)Provide information in multiple ways

Teaching, understanding , assignments

Everything good

To complete the syllabus with time.and to focus on main topic of syllabus

Good

Nothing else

Use educational tools and platforms for interactive personalized and self-paced learning that’s it .

Teaching concept with real time examples

This is excellent work

No .

All are good man....

Use technology
Encourage collaboration
Ask for feedback

Field visit is needed in every semester.

Teaching is good 👌
But needed for more guidance

Enhanced Use of Technology
Active Learning Strategies
Regular Feedback and Personalized Support

The suggestion is they can arrange a crash course type of class on Saturday before facing the exam. It will help to improve overall performance and confidence also.

🤞 🤞

Should teach practically

No any suggestions for improve the overall teaching.

Outstanding Teaching

No any

We need every topics practical knowledge and hands on practical knowledge not only therotical base.
Need group discussion hours in timetable
And also need students conference in front of clg staf and clg students and need how to serve nation through green energy syllabus topic

Need more effective computer lab for study

1. Practical examples should be given while teaching
2. More time should be given on practicals

No Suggestions

Everything good

Make teaching interactive
Identify students weakness

Good

1) Regularly take practice exams.
2) Provide more pratical knowledge.
3) Notifying new opportunity to students.

i think the codes should be taught by properly executing it
we should try to focus on presentations and projects rather than written assignments
teacher should focus more on practical than only theory

All teachers are very good teaching

Satisfied with teaching and learning experience

Technology Integration , Regular Feedback Mechanism

1. Increase the practical based learning.
2. Tech on real time example .
3. Ask or prepare some interview based question on that topic wich is currently teaching.

Institute is very well and motivational

No suggested

Instead of assignment and lectures take more and more practicals.

N.A.

1. Use Interactive Learning Methods
2. Establish a system for regular feedback from students about the teaching process and course content.
3. Give and Use Updated Resources

1. Interactive and Student-Centered Teaching Methods:
2. Increased Use of technology:
3. Continuous Feedback and Support System:

Improve the management

Focus on Soft Skills
Collaborations with Industry

Very good

Everything is going well
Need founds for technical innovation
Space for innovation (lab)

There is nothing to improve but only one thing is that to complete a syllabus at a time .
