

Rang Panchami Festival 2018-2019 25/03/2019

Jaihind college of engineering celebrated the Rang Panchami Festival for 1days in well mannered & disciplined.

The Event is held at college premises, the festival is promoting the students to show importance of various colour in Indian cultural. Rang Panchami has highly religious significance for the Hindus and is considered to be an important ritual. Holika Dahan puja done a day before Holi is associated with liting a huge fire. The fire which is lit during Holi purifies all the rajasic as well as tamasic particles that are present in the atmosphere. It creates a pure aura in the surroundings and fills the atmosphere with tremendous positiveness which helps activate various Deities in the form of colors. Hence, Rang Panchami is a celebration to express the bliss of the purification. Thus, Rang Panchami is a symbol of victory over Rajas and tamas and respects the 'Panch Tattva' which builds up the universe (earth, light, water, sky and wind). It is believed that the human body is also made of the five elements. The festival of Rang Panchami invokes these five basic elements which help to restore balance in life. Rang Panchami is intrinsically a sign of triumph over raja-tama and is an invitation to divinities. The veneration on the day of Rang Panchami are carried out to reverer the incarnated forms of god-heads with a special set of ceremonial rituals.

It was really very well organized event & students also showed very good response by participation in large numbers.
